

UNITED STATES GOVERNMENT

Memorandum

Binnie

TO : All EDC Employees

DATE: February 19, 1985

FROM : Chief, EROS Data Center

RE: OC 2-16

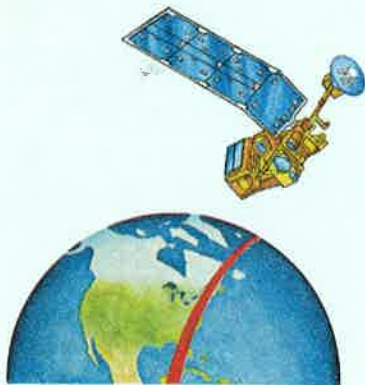

SUBJECT: Commemorative Landsat Aerogramme

The U.S. Postal Service has recognized the Landsat Program by issuing a special commemorative aerogramme. Aerogrammes are used for overseas correspondence via airmail. A "First Day Issue Ceremony" was held at the Goddard Space Flight Center on February 14, at which time special first day cancellations were available for collectors.

Since the Landsat Program has been such an important part of EDC and in honor of this occasion, the Sioux Falls Development Foundation has purchased a quantity of the First Day Issue for us. A First Day Issue has special value as a collector's item.
