Changed SCEP to Pathways

27. Description of Major Duties and Responsibilities (See Attached)

Standard PD S-0232

Introduction

The incumbent of this position serves as a student trainee under the Pathways Internship Program. This program is designed to provide the student with paid work experience and orient them to the mission of the U.S. Geological Survey and the benefits and conditions of a Federal career. It provides formal periods of work and study while the student is enrolled in school, the conditions of which are outlined in the Working Agreement that must be signed by the student, and the employing Office.

Major Duties

Duties to be performed involve work concerned with; 1) gathering basic hydrologic data concerning any one or a combination of four areas, i.e., quantity, quality, availability, and movement and distribution of water; 2) developing hydrologic and precipitation data for current projects; 3) collecting and processing data to be used in computing stream discharge, determining ground water availability or calculating sediment, chemical, or biological concentrations and physical characteristics. Incumbent receives supplemental training as follows; combined office, classroom and home study of textbooks, publications and office manuals covering theory, methods, instrumentation and equipment under the tutelage of either a training officer or other qualified professional hydrologist. This supplemental training is designed to amplify and expedite progress in both college studies and on-the-job training.

Operates a government motor vehicle as an incidental driver.

FACTOR 1 - KNOWLEDGE REQUIRED BY THE POSITION

- Knowledge of basic hydrologic data collection and office computation methods, procedures, and techniques in order to perform a few repetitive tasks.
- Ability to follow sequential standard procedures in order to collect and compute hydrologic data and obtain accurate results.
- Fundamental computer skills sufficient to enter and retrieve hydrologic data from various databases.
- Knowledge of basic electronic technology and equipment mechanics in order to operate and maintain simple hydrologic instrumentation and equipment.

FACTOR 2- SUPERVISORY CONTROLS

Incumbent works under the close direction of a higher grade technician or hydrologist acquiring a familiarity with assigned field and office tasks. Detailed written and/or oral instructions are given with each assignment and new methods, procedures, and techniques are demonstrated. Work is continually checked while in progress and completed assignments are reviewed in detail for proper application of work methods.

FACTOR 3- GUIDELINES

Guidelines include a series of manuals on techniques of water resources investigations (TWRI), agency procedural directives, oral and written instructions and demonstrated methods of operating, servicing, and installing equipment and instrumentation. The majority of instructions are readily memorized and any deviations from instructions must be referred to the supervisor for decision.

FACTOR 4- COMPLEXITY

Assignments consist of specific data collection and computation tasks designed to orient the employee to practical applications of theory and basic principles. Tasks are usually simple and repetitive and require a knowledge of easy-to-follow work procedures performed in a fixed sequence.

FACTOR 5- SCOPE AND EFFECT

The purpose of the work assignments is to provide the student with study-related work experience and to aid the USGS in meeting its short term and long term staffing needs.

FACTOR6-PERSONALCONTACTS

Personal contacts are with hydrologists and technicians within the immediate office and with other office personnel. The incumbent has limited contact with the general public in day-to-day field activities.

FACTOR 7- PURPOSE OF CONTACTS

Contacts are chiefly to obtain advice or direction.

FACTOR 8- PHYSICAL DEMANDS

Work is physically demanding and includes walking, bending, climbing and lifting of equipment up to 100 pounds when in the field, sometimes during adverse weather conditions. Work performed in the office is sedentary.

FACTOR 9- WORK ENVIRONMENT

The work is primarily performed outdoors, and involves moderate or sometimes extreme exposure to the discomforts of rain, cold/hot weather, and rapidly running or icy streams and rivers. Special

safety precautions are required in many cases, and the employee typically wears life jackets, special safety boots, waders, and reflective rain gear.

Select the appropriate statement:

___The U.S. Geological Survey has determined that the duties of this position are suitable for telework only during an emergency or natural disaster.

___The U.S. Geological Survey has determined that the duties of this position are suitable for telework and the selectee may be allowed to telework with supervisor approval.

___The U.S. Geological Survey has determined that telework is required for this position and is a condition of employment. The selectee is expected to telework ___ day s a week and must be eligible to telework under the 2010 Telework Act.

GS-1316, Hydrologic Technician Series, 04/71
