CEMENT IN FEBRUARY 2018

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2017 through February 2018.¹ Data on the imports of cement and clinker for February 2018 are also provided.

Total shipments of portland and blended cement in the United States and Puerto Rico in February 2018 were about 5.8 million metric tons (Mt), down by 3.6% from shipments in February 2017 (tables 2A and 2B). The leading producing States for portland and blended cement in February 2018 were California, Texas, Florida, Missouri, and Alabama, in descending order (table 1A). The leading cement-consuming States (Texas, California, Florida, Georgia, and Arizona, in descending order) received about 50% of the February shipments (tables 2A and 2B).

Masonry cement shipments of about 169,000 metric tons (t) in February 2018 were 6.5% lower than those in February 2017 (table 2C). The leading masonry-cement-consuming States were, in descending order, Florida, Texas, California, North Carolina, and Georgia; these States received about 63% of the February shipments.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report.

Clinker production totaled 4.7 Mt in February 2018, down by 4.8% from the output in February 2017 (table 4). The leading clinker-producing States in February 2017 were, in descending order, Texas, California, Missouri, Florida, and Michigan, and these accounted for about 57% of the total production in February.

Tables 5, 6, and 7 list import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle, WA, and the Detroit, MI, customs districts do not include material trucked in from Canada on an informal entry basis. Likewise, imports of cement into the El Paso, TX, district are missing significant informal entries from Mexico. Monthly imports can show significant year-over-year changes for a variety of reasons and commonly do not correlate well with same month consumption levels in the import districts. February 2018 imports of cement and clinker totaled about 0.7 Mt, about 16% less than imports in February 2017.

List service and web feed subscribers are the first to receive notification of USGS minerals information publications and data releases. For more information on how to subscribe, go to <http://minerals.usgs.gov/minerals/>.
