CEMENT IN DECEMBER 2019

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2018 through December 2019.¹ Data on the imports of cement and clinker for December 2019 also are provided.

Total shipments of portland and blended cement, including imports, in the United States and Puerto Rico in December 2019 were 6.7 million metric tons (Mt), an 8.0% increase from shipments in December 2018 (tables 2A and 2B). Shipments for 2019 totaled 101 Mt, an increase of 3.7% from those in 2018. The leading producing States for portland and blended cement in December 2019 were, in descending order, Texas, Missouri, California, Florida, and Alabama (table 1A). The leading cement-consuming States (Texas, California, Florida, Georgia, and Ohio) received 45% of December shipments (tables 2A and 2B).

Masonry cement shipments totaled 164,000 metric tons in December 2019, an increase of 9.7% from those in December 2018 (table 2C). Shipments for 2019 totaled 2.4 Mt, essentially unchanged from those in 2018. The leading masonry-cement-consuming States in December 2019 were, in descending order, Florida, Texas, California, North Carolina, and Georgia; these States received 61% of December shipments (table 2C).

Clinker production, excluding Puerto Rico, totaled 6.6 Mt in December 2019, essentially unchanged from production in

December 2018 (table 4). Production for 2019 totaled 78.9 Mt, an increase of 2.3% from production in 2018. The leading clinker-producing States in December 2019 were, in descending order, Texas, Missouri, California, Florida, and Alabama.

Tables 5, 6, and 7 list import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle, WA, and the Detroit, MI, customs districts do not include material trucked in from Canada on an informal-entry basis. Likewise, reported imports of cement into the El Paso, TX, district may be missing significant informal entries from Mexico. Monthly imports can show significant year-over-year changes for a variety of reasons and commonly do not correlate well with consumption levels in the respective import districts in the same month. December 2019 imports of cement and clinker totaled 1.1 Mt, a decrease of 5.8% from imports in December 2018. Imports for 2019 totaled 16.2 Mt, an increase of 7.1% from those in 2018.

List services and web feed subscribers are the first to receive notification of USGS minerals information publications and data releases. For more information on how to subscribe, go to <https://www.usgs.gov/centers/nmic/minerals-information-publication-list-services>.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report.

TABLE 1A
 PORTLAND AND BLENDED CEMENT SHIPMENTS, BY DISTRICT OF ORIGIN, JANUARY 2018–DECEMBER 2019^{1,2}

(Metric tons)

| District | 2018 | | | | | | |

[†]Revised.

¹Data are unrounded but are thought to be accurate to no more than three significant digits.

²Includes imported cement and cement manufactured from imported clinker.

³As reported by domestic and Canadian cement manufacturers and other importers.

⁴Data may not add to totals shown because of independent rounding.

¹Revised. -- Zero.

²Data are unrounded but are thought to be accurate to no more than three significant digits.

³Includes imported cement and cement manufactured from imported clinker.

⁴Blended cement defined per ASTM standard C595.

⁵Includes U.S. possessions and territories.

⁶Data may not add to totals shown because of independent rounding.
