CEMENT IN MAY 2020

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2019 through May 2020. Data on the imports of cement and clinker for May 2020 also are provided.

Total shipments of portland and blended cement, including imports, in the United States and Puerto Rico in May 2020 were 8.7 million metric tons (Mt), a decrease of 6.3% from shipments in May 2019 (tables 2A and 2B). Shipments for the year through May totaled 37.8 Mt, a slight increase from those for the same period in 2019. The leading producing States for portland and blended cement in May 2020 were, in descending order, Missouri, California, Texas, Florida, and Michigan (table 1A), these States accounted for 42% of cement produced. The leading cement-consuming States (Texas, California, Florida, Illinois, and Ohio) received 39% of May shipments (tables 2A and 2B).

Masonry cement shipments totaled 194,000 metric tons (t) in May 2020, a decrease of 13% from those in May 2019 (table 2C). Shipments for the year through May totaled 944,000 t, a decrease of 4.9% from those for the same period in 2019. The leading masonry-cement-consuming States in May 2020 were, in descending order, Florida, Texas, California, Georgia, and Tennessee; these States received 57% of May shipments (table 2C).

Clinker production, excluding Puerto Rico, totaled 6.8 Mt in May 2020, a decrease of 5.4% from production in May 2019 (table 4). Production for the year through May totaled 29.9 Mt, an increase of 3.2% from the same period in 2019. The leading clinker-producing States in May 2020 were, in descending order, Missouri, Texas, California, Florida, and Alabama (table 4).

Tables 5, 6, and 7 list import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle, WA, and the Detroit, MI, customs districts do not include material trucked in from Canada on an informal-entry basis. Likewise, reported imports of cement into the El Paso, TX, district may be missing significant informal entries from Mexico. Monthly imports can show significant year-over-year changes for a variety of reasons and commonly do not correlate well with consumption levels in the respective import districts in the same month. May 2020 imports of cement and clinker totaled 1.2 Mt, a decrease of 28% from imports in May 2019. Imports for the year through May totaled 6.1 Mt, essentially unchanged from those for the same period in 2019.

Measures instituted to mitigate the spread of the COVID-19 pandemic are likely to continue to cause disruptions in the cement industry across the United States and around the world. In New York, one cement plant was idled at the end of April 2020 owing to the outbreak (Global Cement News, 2020).

¹Data are unrounded but are thought to be accurate to no more than three significant digits.

²Includes imported cement and cement manufactured from imported clinker.

³Blended cement defined per ASTM standard C595.

⁴Includes U.S. possessions and territories.

⁵Data may not add to totals shown because of independent rounding.
