## CEMENT IN FEBRUARY 2021

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2020 through February 2021. Data on the imports of cement and clinker for February 2021 also are provided.

Total shipments of portland and blended cement, including imports, in the United States and Puerto Rico in February 2021 were an estimated 5.7 million metric tons (Mt), an 11% decrease from shipments in February 2020 (tables 2A and 2B).

Shipments for the year through February totaled an estimated 12.4 Mt, a decrease of 6.2% from those for the same period in 2020. The leading producing States for portland and blended cement in February 2021 were, in descending order, California, Texas, Florida, Missouri, and Alabama (table 1A). The leading cement-consuming States (Texas, California, Florida, Arizona, and Georgia) received 51% of February shipments (tables 2A and 2B).

Masonry cement shipments totaled an estimated 149,000 metric tons (t) in February 2021, an 8.6% decrease from those in February 2020 (table 2C). Shipments for the year through February totaled an estimated 326,000 t, a decrease of 7.5% from those for the same period in 2020. The leading masonry-cement-consuming States in February 2021 were, in descending order, Florida, Texas, California, Georgia, and North Carolina; these States received 65% of February shipments (table 2C).

Clinker production, excluding Puerto Rico, totaled an estimated 4.5 Mt in February 2021, a 9.4% decrease from

production in February 2020 (table 4). Production for the year through February totaled an estimated 10.2 Mt, a decrease of 3.8% from the same period in 2020. The leading clinker-producing States in February 2021 were, in descending order, California, Texas, Florida, Missouri, and Alabama (table 4).

Tables 5, 6, and 7 list import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle, WA, and the Detroit, MI, customs districts do not include material trucked in from Canada on an informal-entry basis. Likewise, reported imports of cement into the El Paso, TX, district may be missing significant informal entries from Mexico. Monthly imports can show significant year-over-year changes for a variety of reasons and commonly do not correlate well with consumption levels in the respective import districts in the same month. February 2021 imports of cement and clinker totaled 1.4 Mt, a 21% increase from imports in February 2020. Imports for the year through February totaled 2.9 Mt, an increase of 38% from those for the same period in 2020.
